Diatoms : Biology & morphology of the genera in ...

Diatoms are important as perhaps the commonest group of autotrophic plants on earth and are abundant in all waters and on soils and moist surfaces. The introduction describes the diatom cell in detail, the structure of the wall (often extremely beautiful in design), the cell contents and aspects of life cycle and cell division. The generic atlas section is the first account of diatom

Diatoms - Tree of Life Web Project

Furthermore, cells covered evenly with scales are known in diatoms, in the auxospores of some centric diatoms, e.g. Melosira or Ellerbeckia (Crawford 1974, Schmid & Crawford 2001). The main differences between the Round Crawford and Mann Marchant hypotheses are in the assumptions made about the nature of the scales and scaly cell in the early (Ur-) diatoms and the nature of the scaly
