The Historiography of Contemporary Science and
Technology ...

Merely a decade ago, most scientific historians considered
recent science - the scientific culture created, lived and
remembered by contemporary scientists - an area of study
best left to the historical actors themselves.

More than ninety percent of all scientific history has been
made during the last half century. So far, however, only a
fraction of historical scholarship has dealt with this period.

The Historiography of Contemporary Science,
Technology ...

As historians of science increasingly turn to work on
recent (post 1945) science, the historiographical and
methodological problems associated with the history of
contemporary science are debated with growing frequency
and urgency. Bringing together authorities on the history,
historiography and
