Observer review: The Nautical Chart by Arturo P rez-Reverte

Arturo P rez-Reverte sets sail on the high seas for an adventure story that questions our need to tell stories in The Nautical Chart

The Nautical Chart: Arturo Perez-Reverte, Margaret Sayers ...

I have read almost all Perez-Reverte's novels. Some are set way in the past, some in the present. This one is in the present, but is about searching for a lost shipwreck from long ago, there may be some sections that are flashbacks to Europe in the 15th-17th century. It is a compelling story and also one learns a bit about Spain, history and nautical science so all in all, a great reading
