This course offers a critical overview of the state of Development Studies for those who have some background in International Development. Its primary objective is to familiarize class-members with the present and past development theories, discourses/perspectives and issues.

Understanding Development: Theory and Practice in the ...

Understanding Development is a short, succinct, effective look at the history of developmental economics throughout the 20th century. Because it was written in 1996, some of the important changes in the international economy since then are missing, but John Rapley does an excellent job of covering the predominant theories in question.
